

BONFACE MWONGERA

Computer Science Student | Frontend Developer | Cybersecurity Practitioner | Banking & Finance Professional

Egerton, Kenya | bonifacemwongera02@gmail.com | [linkedin.com/in/bonface-mwongera](https://www.linkedin.com/in/bonface-mwongera) | github.com/Buddos

PROFESSIONAL SUMMARY

Computer Science student at Egerton University (expected graduation 2027) with hands-on experience across frontend development, cybersecurity, and banking operations. Builds functional, responsive web applications using HTML5, CSS3, TypeScript, React, Node.js and Django, and is building practical cybersecurity skills in ethical hacking, penetration testing and defensive security through Cisco, TryHackMe and self-directed labs. Brings over two years of professional experience at Equity Bank in digital banking operations, customer education and new business acquisition, alongside demonstrated leadership as a student ambassador. Seeking opportunities in software development, cybersecurity, or related technology roles.

SKILLS

Programming & Frameworks: Python, TypeScript, HTML5, CSS3, SQL, React, Django, Node.js, REST APIs

Web Development & Databases: Responsive Design, Cross-Browser Compatibility, Frontend Architecture, MySQL, Database Design & Administration

Tools: Git, GitHub, VS Code, XAMPP/WAMP

Cybersecurity: Ethical hacking fundamentals (Cisco, TryHackMe), web application vulnerability testing, password security auditing, network penetration testing fundamentals, defensive security principles

Banking & Professional: New account acquisition, cross-selling, consultative selling, high-volume cash handling, KYC compliance, customer relationship management, leadership, teamwork, adaptability

TECHNICAL PROJECTS

Dashing — E-Commerce Platform (Completed) — HTML5, CSS3, TypeScript, Node.js, MySQL

GitHub: <https://github.com/Buddos/Dashing>

- Built product catalogue, shopping cart, user authentication and order management features.
- Implemented backend processing with Node.js and MySQL, handling user data protection and transaction integrity.
- Designed a responsive, mobile-first UI for a consistent experience across devices.
- Added session management and form validation to strengthen security and user experience.

Zenalyze — Mental Health & Wellness Platform (In Progress) — Django, Python, HTML5, CSS3

GitHub: <https://github.com/Buddos/zenalyze>

- Building accessible, user-friendly tools for tracking wellbeing and connecting users with supportive resources.
- Applying full-stack skills — Django backend, HTML5/CSS3 frontend — to design an interface centered on clarity, privacy and ease of use.

SmartBiz AI — AI-Powered Business Assistant (In Progress) — Django, Python, HTML5, CSS3, JavaScript

GitHub: <https://github.com/Buddos/smartbiz-Ai>

- Developing a platform that uses AI to simplify everyday business tasks and automate routine operations for small businesses.
- Responsible for frontend architecture and integrating AI-driven features into a usable, business-focused interface.

BonnieInfratech Company Website (Completed) — HTML5, CSS3, JavaScript

GitHub: <https://github.com/Buddos/bonnieinfratech>

- Built a responsive, multi-page corporate website for an IT infrastructure company to strengthen its online presence.
- Implemented modern CSS techniques (Flexbox, Grid) with animations and transitions for a polished UX.

- Used vanilla JavaScript for interactive features including navigation menus, form validation and dynamic content.
- Optimized performance through image compression and efficient code structure.

WORK EXPERIENCE

Sales Agent, Operations Department — Equity Bank — Isiolo Branch | Apr–Aug 2024 & Apr–Aug 2025

- **Digital Adoption & Literacy:** Spearheaded customer education on the Equity Mobile App and Equitel SIM cards, simplifying digital tools to improve financial inclusion and client self-service.
- **New Business Acquisition:** Consistently exceeded onboarding targets, registering an average of 15+ new customers daily for Equitel lines and mobile banking services.
- **Customer Engagement:** Identified digital upselling opportunities through transaction interactions, contributing to the branch's digital migration goals.

Cashier, Operations Department — Equity Bank — Isiolo Branch | Feb–Aug 2023

- **High-Volume Transactions:** Served over 100 customers daily, ensuring accurate cash handling and strict adherence to banking compliance standards.
- **Revenue Generation:** Mobilized KES 5,000,000 in new fixed deposits through proactive, consultative selling.
- **Customer Service:** Built client rapport that facilitated trust and cross-selling opportunities.

EDUCATION

Bachelor of Science in Computer Science — Egerton University, Njoro, Kenya

Expected Graduation: 2027

Relevant Coursework: Data Structures & Algorithms, Database Systems (completed with distinction), Computer Networks, Web Technologies, Software Engineering, Object-Oriented Programming, System Analysis & Design, Machine Learning & AI, Data Labelling, Computer Vision, Data Analysis

Academic Projects:

- Database design and implementation for an E-commerce Management system.
- Network configuration and security simulation projects.
- Algorithm analysis and optimization assignments.

KCSE — Kisii High School, Kisii, Kenya — 2022 — Grade: A–

KCPE — Mwangaza Primary School, Isiolo, Kenya — 2018 — Score: 361 Marks

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Male Ambassador — Faculty of Science Students Association (FOSSA), Egerton University

- Represented the association in mobilizing students and promoting participation in faculty events and programs.
- Organized and coordinated student events, including inter-class football tournaments, overseeing planning and on-the-day logistics.
- Served as a positive representative of the organization, building relationships across the student body.

CERTIFICATIONS & CONTINUOUS LEARNING

- Cisco Python Programming — course completion.
- Cisco Ethical Hacking — course completion.
- TryHackMe — active learner, ongoing rooms in ethical hacking and penetration testing.
- Web Development Fundamentals — self-paced learning completion (2023).
